WHAT IS CLAIMED IS:

- 1. A method for playing a wagering game having a special payout with a first payout and a second payout, the method comprising:
 - conducting a basic game having a randomly selected outcome;
 - presenting a side-wager option for a player to be eligible for the special payout; and
 - in response to the player selecting the option to be eligible for the special payout, crediting the player the first payout when a first randomly selected outcome occurs in the basic game and crediting the player the second payout when a second randomly selected outcome occurs in the basic game.
- 2. The method of claim 1, further comprising crediting the player a third payout when a third randomly selected outcome occurs in the basic game.
- 3. The method of claim 1, wherein the special payout is a progressive payout.
- 4. The method of claim 1, wherein the first payout is a bonus game.
- 5. The method of claim 1, wherein the randomly selected outcome comprises a plurality of symbols.
- 6. The method of claim 5, wherein each of the plurality of symbols is a card from a deck of playing cards.
- 7. The method of claim 5, wherein the wagering game is a slot machine and each of the plurality of symbols is a reel symbol.

8. A method for playing a wagering game on a gaming terminal, the wagering game having a progressive payout with a first payout and a second payout, the method comprising:

conducting a basic game having a plurality of symbols that indicate a randomly selected outcome of the basic game;

presenting an option for a player to be eligible for the progressive payout; and in response to the player selecting the option to be eligible for the progressive payout, awarding the first payout when a first randomly selected outcome is achieved in the basic game and awarding the second payout when a second randomly selected outcome is achieved in the basic game.

- 9. The method of claim 8, wherein the conducting step comprises choosing at least one of a plurality of paylines to play and choosing a wager amount for each of the plurality of paylines chosen.
- 10. The method of claim 9, wherein the presenting step only occurs if all of the plurality of paylines are chosen.
- 11. The method of claim 8, wherein the awarding step is performed by a controller in the gaming terminal.
- 12. A gaming system for playing a wagering game having a special payout with a first payout and a second payout, the gaming system comprising a gaming terminal for playing a basic game having a randomly selected outcome, the gaming terminal having a side-wager input device for allowing a player to be eligible to win the special payout wherein, in response to activation of the side-wager input device, the gaming terminal credits the player the first payout when a first randomly selected outcome is achieved in the basic game and the gaming terminal credits the player the second payout when a second randomly selected outcome is achieved in the basic game.
- 13. The system of claim 12, wherein the special payout is a progressive jackpot.

- 14. The system of claim 12, wherein the first payout is a bonus game jackpot.
- 15. The system of claim 12, wherein the side-wager input device is a button or a key.
- 16. The system of claim 12, wherein the first and second randomly selected outcomes comprise a plurality of symbols.
- 17. The system of claim 16, wherein each of the plurality of symbols is a card from a deck of playing cards.
- 18. The system of claim 16, wherein the gaming terminal is a slot machine and each of the plurality of symbols is a standard slot machine symbol.
- 19. The gaming system of claim 12, further comprising a plurality of gaming terminals for conducting wagering games, each of the plurality of gaming terminals having the side-wager input device.
- 20. The gaming system of claim 19, further comprising signage located above and coupled to the plurality of gaming terminals, the signage displaying the special payout and for receiving a signal from one of the plurality of gaming terminals that it is eligible to win a special payout.
- 21. The gaming system of claim 20, wherein the signage includes a signage controller for controlling an outcome of the special payout on one of the plurality of gaming terminals.
- 22. The gaming system of claim 21, wherein each of the plurality of gaming terminals includes a gaming terminal controller, the gaming terminal controller being in communication with the signage controller.

- 23. The gaming system of claim 19, wherein each of the plurality of gaming terminals are identical machines.
- 24. The gaming system of claim 19, wherein the special payout is a progressive payout.
- 25. The gaming system of claim 19, wherein the first payout is a bonus game payout.
- 26. A gaming terminal for playing a wagering game, comprising:
 - a basic game having a plurality of symbols that indicate a randomly selected outcome of the basic game;
 - a progressive payout having a first payout and a second payout; and
 - an input device for allowing a player to become eligible for the progressive payout;
 - wherein, in response to the input device being activated, the gaming terminal awards the player the first payout when a first randomly selected outcome is achieved and awards the player the second payout when a second randomly selected outcome is achieved.
- 27. The gaming terminal of claim 26, wherein in response to the input device being activated, the gaming terminal awards the player a third payout when a third randomly selected outcome is achieved.
